TRC has built a distinguished reputation as a creative, yet practical, problem solver on many of the largest superfund, RCRA, landfill, and site remediation projects. Services include:

**Engineering Support**
- Permitting
- Feasibility Studies
- Remedial Investigation
- Remedial Design
- Remedial System Optimization
- Carbon Foot-print Analysis
- Construction Support & Management
- Remedial System Operation, Monitoring & Maintenance
- Brownfield Redevelopment
- Landfill Closure
- Groundwater Modeling & Visualization
- Facility Closure & Demolition
- Geotechnical Design
- Pilot & Treatability Testing
- Life-cycle cost analysis and modeling
- Forensic Evaluation & Litigation Support

**Ground Water Remediation**
- Natural Source Zone Depletion

**Soil Remediation**
- Natural Attenuation
- In Well Air Stripping
- Air Sparging/Biosparging
- Containment/Barrier Systems
- Dual Phase Extraction
- NAPL Remediation
- In Situ Chemical Oxidation
- In Situ Chemical Reduction
- In Situ Bioremediation
- In Situ Geochemical Fixation
- In Situ Thermal Treatment
- Permeable Reactive Barriers
- Pump and Treat
- Recirculation & Injection Optimization

**REPRESENTATIVE CLIENTS**
- AIG
- BNSF Railway
- BP
- Canadian National Railway
- City of New Bedford, MA
- CT Department of Transportation
- Consolidated Edison Co.
- CSX
- ExxonMobil Corporation
- Federal Aviation Administration
- General Mills, Inc
- Georgia-Pacific Corp
- Hoffmann La Roche Inc.
- IBM
- International Paper
- Kinder Morgan
- National Grid
- NY/NJ Port Authority
- NY School Construction Authority
- Pacific Gas & Electric Co.
- Pfizer
- SPX Corporation
- Waste Management

Why TRC:
We excel in constructing creative options to find the optimal solution for our clients.
We are dedicated to helping our clients reach their ultimate goals.
Our comprehensive portfolio of services lets us deliver end-to-end solutions that meet your needs.

About TRC
A pioneer in groundbreaking scientific and engineering developments since the 1960s, TRC is a national engineering, environmental consulting and construction management firm that brings an integrated approach to the issues facing the power, oil and gas, environmental and infrastructure markets.

With over 4,000 technical professionals and support personnel at more than 120 offices throughout the U.S., we serve a broad range of commercial, industrial and government clients. Our multidisciplinary teams implement complex projects successfully and cost effectively—from initial concept, through permitting, engineering, and construction. And our nationwide network of offices is a crucial asset for understanding the local sensitivities and regional needs that are integral to project success.

At TRC, we not only understand your goals, we embrace them as our own—and we take responsibility for reaching them. We deliver results that enable you to succeed in a complex and changing world.
